Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 7, 8, 10, 11, 22-25, 29, 30, 32, 33, 44 and 45 are rejected under 35 U.S.C. 102(b) as being anticipated by Nguyen et al. (USPN 5,557,140).

Fig. 1 discloses an integrated unitary structure comprising a rectifier and capacitor sharing a common conductor. External effects such as temperature inherently influence the electrical characteristics of integrated structures. Thus, the components of the structure are inherently seen as a "sensor". Nguyen et al. anticipate claims 1-3, 7, 8, 10, 11, 22-25, 29, 30, 32, 33, 44 and 45.

Conclusion

3. Claims 4-6, 9, 12-21, 24-28, 31 and 34-43 are objected to as being dependent upon a rejected base claim, but may be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
